

## ASUS ZenBook Duo 14

### The laptop of tomorrow

#### Ergonomic two-screen multitasking

The revolutionary tilting ScreenPad™ Plus delivers seamless workflows, improved readability, immersive visuals, and enhanced cooling

#### Heavyweight performance

Slim chassis houses up to an 11th Generation Intel® Core™ i7 processor and NVIDIA® GeForce® MX450 graphics

#### Effortless portability

Enjoy take-anywhere convenience with a 16.9 mm-thin chassis and up to 17 hours battery life\*

All it takes is a glance

\* Battery life test configuration: Intel® Core™ i5-1135G7 processor, 8 GB Memory, 1 W FHD Display, 512 GB SSD, 70 Wh. Battery tests conducted by ASUS in Oct 2020 using MobileMark™ 2018. Test settings: WiFi enabled but disconnected (not connected to any access point), Windows Power Plan set to Balanced, display brightness set to 200 nits. Actual battery life may vary depending on product configuration, usage, operational conditions and power management settings. Battery life will decrease over the lifetime of the battery.

Laptop

Best Laptop Brand Winner 2020

# Best Laptop Brand of 2020 – Laptop Mag

*“This year (2020) finds Asus as our best brand. Throughout the year, the laptop OEM consistently produced systems that were equal parts powerful, beautiful and innovative.”*

*“What’s most exciting about Asus’ collection is that it proves how capable the company is at crafting compelling laptops in a wide range of categories”*

### ASUS ZenBook Pro Duo

*“Killer innovation: Asus continues to push its dual-screen display agenda forward with the ZenBook Duo UX481 and ZenBook Pro Duo UX581, continuing to enhance the experience.”*

### ASUS VivoBook S15

*“Almost all of Asus’ laptops have some wild design choices, ones that we don’t get to see much of in other competitors. Like, any semblance of color, for example.”*

### ZEPHYRUS G14

*“Asus blew us away with the Zephyrus G14 and the ROG Mothership, with the former being the longest lasting gaming laptop around, and the latter being the first detachable gaming laptop.”*

### ASUS ExpertBook B9

*“Asus offers one of the best business laptops around in the Asus ExpertBook B9450 which delivers a ridiculous 16-plus-hour battery life.”*

# IN SEARCH OF INCREDIBLE

ASUS is passionate about technology and driven by innovation. We dream, we dare, and we strive to create an effortless and joyful digital life for everyone. We're always in search of incredible ideas and experiences, and we aspire to deliver the incredible in everything we do.

— Jonney Shih, ASUS Chairman

- **14,500+**  
employees worldwide
- **5,000+**  
world-class R&D team
- **61,520**  
awards won since 2001
- **69,965**  
green certification in 2020 alone
- **82**  
countries covered by the international warranty

ASUS is the No.1 consumer laptop brand in Asia-Pacific, and a top-three vendor of consumer laptops globally. We're also proud to be world's best-selling, most award-winning motherboard brand. The combined talent of 14,500 international employees, including a world-class R&D team of 5,000 engineers, has elevated ASUS to become one of Fortune magazine's World's Most Admired Companies in 2021.

## Incredible Stories

### Outperforming Competitors through 600 Days in Outer Space

R&K, a major supplier of computers and electronic equipment for aeronautical missions to outer space, provided MIR Space Station astronauts with two ASUS notebooks for their 600-day stint in space. "The ASUS notebooks never overheated like some of the devices made by other companies," said Russian cosmonaut Sergei Avdeev.

### First to Reach the Tallest Peak in Antarctica

On December 16, 2003, acclaimed mountaineers Shi Wang and Jian Liu embarked on an expedition to the summit of Mount Vinson — the tallest peak in Antarctica, where temperatures are known to drop below minus 100° F. The device they chose to take with them was an ASUS S200N notebook.

### First to Reach the Top of Mount Everest

For a Mount Everest expedition, a mountaineering team selected a series of ASUS notebooks as their devices of choice. Expedition team leader, Captain Wang Yongfong, took an ASUS notebook with him to the peak: At 8,848 meters above sea level, the ASUS notebook became the first in the world to reach the top of Mount Everest.

### No.1 Global Motherboard Brand

With over 33% of the global market share, ASUS is the world's best-selling and most award-winning motherboard brand. Since 1989, ASUS has shipped over 550 million motherboards. Placed end to end, they would form a chain long enough to circle the globe nearly 4 times!

### No.1 Global Graphics Card Brand

Since 2005, ASUS has been the best-selling graphics card brand and has won the most awards.

### No.1 Consumer Notebook Company in Asia-Pacific (\* Excluding China and Japan)

ASUS is the No.1 consumer notebook company in Asia-Pacific\* and No. 3 in Europe, Middle East, Africa, and in worldwide sales.

### No.1 Global Gaming Laptop Brand

Widely popular ROG gaming notebooks continue to be the worldwide leader in sales.

### No.1 Global Gaming Monitor Brand

ASUS and ROG gaming monitors have dominated the worldwide market for four consecutive years and continue to be the No.1 choice for gamers!

# WORLDWIDE ACHIEVEMENT

### One of the World's Most Admired Companies

ASUS was named one of the top 10 World's Most Admired Companies by Fortune Magazine in 2021, in the computer category.

### Most Valuable International Brand from Taiwan

ASUS has been named the most valuable international brand from Taiwan seven times, based on annual surveys conducted by the world-leading brand consultancy Interbrand.

### Best Laptop Brand Winner in 2020

Laptop Mag ranked ASUS the No. 1 global laptop brand for 2020. ASUS laptops receive excellent scores in design and innovation, and receive high score in reviews, value and selection categories.

### Top Regarded Companies

Forbes has named ASUS among its Top Regarded Companies for three consecutive years. Companies are evaluated on topics such as trustworthiness, social conduct, performance of products or services and status as an employer.

### 69,965 Green Certifications in 2020

ASUS was the first global IT company in the world to achieve EU Ecolabel certification for laptops, and 69,965 Ecolabels were registered globally in 2020.

All it takes is a glance

# TOP GLOBAL NOTEBOOK BRAND

- Top 3 global consumer notebook company
- No. 1 consumer notebook company in Asia-Pacific (Excluding Japan and China)\*
- No. 1 consumer notebook company in Central & Eastern Europe
- Top 3 consumer notebook company in Western Europe
- Top 3 consumer notebook company in Middle East & Africa

# ENSURING BEST-QUALITY LAPTOPS

Durability is a hallmark of ASUS design. We strive to create devices that exceed expectations in any environment. That's why ASUS laptops undergo a rigorous torture-test regime, including military-grade testing to the demanding U.S. MIL-STD 810H standard\*. We perform up to 15 separate tests in range of environmental conditions. So whether you're an urban explorer or an arctic trailblazer, you can rest assured your laptop is ready for anything, anywhere.

Drop Test

Vibration Test

Temperature Test

Altitude Test

Humidity Test

Accelerated Life Test

EMI Test

Acoustic Test

Keyboard Test

Hinge Test

Port Test

Twist Test

Panel Pressure Test

Touch Panel Precision Test

## Reliability Tests

ASUS laptops are tested to be tough enough to keep working after sudden impacts, so there's no need to worry about everyday knocks and bumps.

### SHOCK TEST

Shock tests ensure a laptop can withstand unexpected impacts such as accidental bumps, or jarring movements during shipping.

### DROP TEST

Drop tests check the resistance of the chassis and internal components to damage from unexpected drops.

### VIBRATION TEST

Multidirectional 5-500 Hz physical vibration tests ensure that the chassis and internal components can withstand even the most extreme travel conditions.

All it takes is a glance

\* Select ZenBook and Expert series models are tested according to the demanding MIL-STD 810H military-grade standards to ensure maximum reliability and durability. The number of tests passed by each laptop model is shown in the individual model's specifications sheet.

# Durability Tests

ASUS laptops are built to last, even after continuous daily use. All units are put through extreme tests to ensure the display, hinge, structure and ports are built to last.

## KEYBOARD TEST

To ensure ultimate keyboard durability, specially designed ASUS robots test individual keys with millions of keystrokes.

## HINGE TEST

Vigorous testing with over 20,000 open/close cycles helps ensure exceptional hinge strength.

## TEMPERATURE TEST

Extremely high- or low-temperature tests ensure that the laptop functions consistently in any temperature.

## ALTITUDE TEST

This tests the ability to survive extremes of altitude encountered in shipping by air or air travel.

## TWIST TEST

50,000 twist tests confirm that the chassis is strong enough to retain structural integrity when uneven pressure is applied.

## PORT TEST

5,000 insertion tests ensure port durability.

## HUMIDITY TEST

This tests the ability to operate in hot, humid environments for ten 24-hour cycles.

## ACCELERATED LIFE TEST

These tests simulate the effects of long-term operation.

## PANEL PRESSURE TEST

25-kilogram resistance tests ensure that the display can endure unexpected bumps or pressure.

## TOUCH PANEL PRECISION TEST

This test checks the responsiveness and accuracy of the touchscreen for a natural touch and writing experiences with ASUS Pen.

## EMI TEST

This ensures that ASUS laptops perform well in internal or external electromagnetic fields.

## ACOUSTIC TEST

Laptops undergo fan, hard drive, and power-supply noise tests to ensure the quietest performance possible.

# GLOBAL 2-YEAR WARRANTY

100% FREE Labor & Spare Parts Warranty Service

Did you know that ASUS offers a 2-year international warranty that's absolutely FREE? Some vendors claim to give a 3-year warranty, but it's actually only a 1-year labor & parts warranty plus 2 years free labor. That means after the 1 year warranty has expired, you still have to pay the cost of spare parts for repairs.

**100% Free Service & Spare Parts**

## International Warranty in 82 Countries

ASUS is confident in the quality and durability of our products, so we provide a 2-year international warranty in 82 countries worldwide for ASUS laptops. For select products, ASUS provides a 1-year international warranty.

\* Service and warranty coverage may vary depending on country and territory. Please check with your local retailer to confirm the options available.  
 \* Please visit the ASUS support site at <http://www.asus.com/support> for current and complete ASUS warranty information and exact international warranty coverage in every country.  
 \* Although we endeavor to present the most accurate and comprehensive information at the time of publication, we reserve the right to make changes without prior notice.

# UPGRADE TO PREMIUM SERVICE

## ASUS Premium Care

ASUS Premium Care upgrades the standard ASUS warranty with an extra year of protection. Premium Care offers several levels of coverage, allowing users to create a tailor-made package to fully protect ASUS products.

### Product Protection

- Extended warranty period provides hassle-free repair or replacement, including parts and labor
- Expert support from ASUS engineers
- Extra protection for major parts
- An ASUS authorized technician provides on-site parts repair at designated locations
- ASUS retains defective HDDs to help ensure data is preserved
- International or local repair and support (dependent on the extended service package purchased)

### How to Purchase ASUS Premium Care

- Via MyASUS app: Open the Windows Start Menu and click the MyASUS icon; then select My Product and Warranty package
- Visit the ASUS Store at [www.asus.com/store.html](http://www.asus.com/store.html)
- Visit the ASUS Service Shop at <https://serviceshop.asus.com> and input the serial number to find a suitable Premium Care option
- Contact an ASUS authorized reseller for information

### Eligible Products\*

- Notebooks
- Commercial notebooks
- Gaming notebooks
- All-In-one PCs
- Commercial desktops
- Consumer desktops
- Mini PCs, VivoPCs
- Servers
- VGA displays

# WE'RE HERE TO HELP

## ASUS Support

ASUS Support offers a diverse range of services to ensure great ASUS experiences!

**24-hour Hotline**  
Call for help with solving any issues with any ASUS device.

**Pick-up & Return Service**  
Enjoy a door-to-door service including pick up, repair and return of supported hardware.

**24 Service Centers Worldwide**  
\_\_\_\_ Royal Service Clubs  
\_\_\_\_ Authorized Service Centers

**Online Timeslot Reservation for Repair Service**  
Avoid long waiting times by booking a timeslot online before bringing a device in for repair.

**Two-year International Warranty**  
100% free of charge, with no hidden costs. Covers over 82 countries.

**ASUS Premium Care**  
Extend or upgrade an ASUS warranty.

**Download MyASUS Now!**  
MyASUS provides easy access to ASUS apps designed to help users maintain their system, update software, optimize PC performance, and easily contact ASUS aftersales or customer support.

**MyASUS System Diagnosis**  
Check your PC for problems with a thorough self-diagnostic check using the MyASUS app.

**Recycle for Charity**  
Drop off old laptops at any ASUS service center and we'll refurbish and donate it to those in need.

City	ASUS Service Center Address	Telephone Number	Work Hours
Colombo	The Technocity (Pvt) Ltd., 401, Galle Road, Colombo 4.	+94 112 550046 /47/48	Mon-Fri : 09:00-17:00
Colombo	Singer Sri Lanka. 116, Union Place, Colombo 2.	+94 117 572400	Mon-Fri : 09:00-17:00

### Product Protection

ASUS provides several aftersales service channels for customers, including Customer Service in MyASUS via PC, or the MyASUS Service Center app for mobile devices. These services make it easy to register products or contact a customer service representative for instant help.

### ASUS Pick-up & Return Service

On top of our 2-Year international warranty, ASUS offers a premium Pick Up & Return Service for customers and dealers. Customers can request for a door-to-door pick-up service, or simply drop off your ASUS device at the nearest ASUS Service Center or retailer for repair.

For Laptops, Mobile and Tablet

### 4 Steps for ASUS Pick-up & Return Service

**1. Call**  
Call \_\_\_\_\_ to \_\_\_\_\_  
**For reference only.**  
& Return Service.

**2. CSR**  
A Customer Service Representative (CSR) will provide you with a Service Request number.

**3. Receive**  
You will receive a confirmation email, please print out the Delivery Docket form attached in the email.

**4. Pickup**  
Paste the deliver docket form on the box and wait for the courier to collect the device from you.

For Desktop and AiO

### 4 Steps for ASUS Onsite Service

**1. Call**  
Call \_\_\_\_\_ to \_\_\_\_\_  
**For reference only.**  
& Return Service.

**2. CSR**  
A Customer Service Representative (CSR) will provide you with a Service Request number.

**3. Receive**  
A CSR will give you a confirmation call to arrange for the next available service timeslot.

**4. Wait**  
Wait for an onsite technician to service your Desktop or AiO

With McAfee® LiveSafe™ service, count on a name you can trust to get the ultimate antivirus, identity, and privacy protection you need for your PCs, smartphones, and tablets.

## ASUS Support

### Award-Winning Antivirus

The award-winning power of McAfee blocks viruses, malware, ransomware, spyware, unwanted programs and more from your PC, giving you peace of mind so you can surf the internet in safety

### Safe Web Browsing

Just browsing the internet can be a risky business. McAfee® WebAdvisor gives you proactive protection against threats, warning you about risky websites and helping to prevent dangerous downloads and phishing attacks

### Free Support

If you ever have any problems, help is always at your fingertips, with free technical support via phone, chat, or online available for the full duration of your subscription

### Password Manager

Writing down passwords or storing them in files is not a good idea. The powerful Password Manager app, with multi-factor authentication, keeps all your passwords safe without the worry

### Multi-Device

Managing your security settings on multiple devices is easy, with an easy-to-use web page that lets you access status and settings for all your McAfee-protected devices

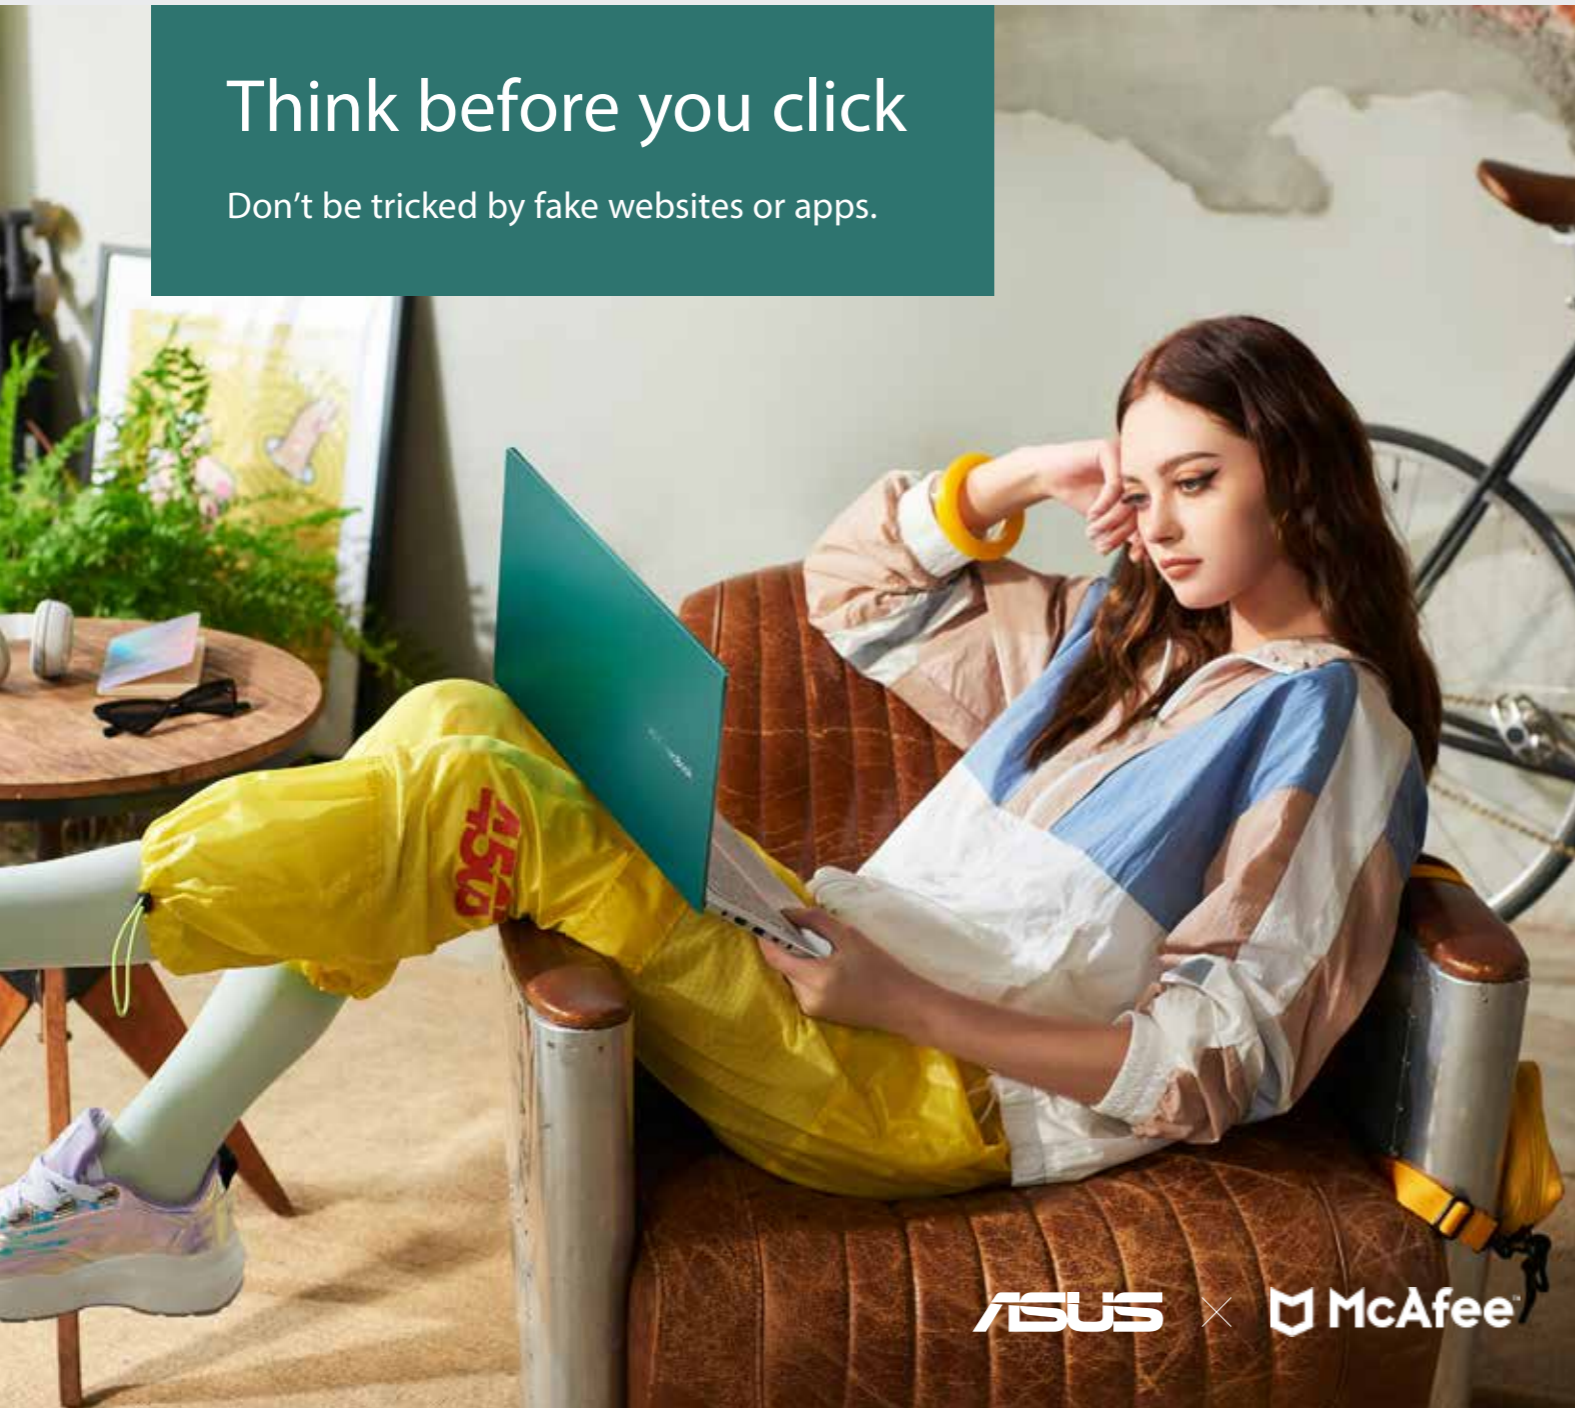

### File Lock

Some personal and confidential files need an extra level of protection. File Lock ensures they're completely private by protecting them with a combination of password protection and encryption

Think before you click

Don't be tricked by fake websites or apps.

# EXPLORE EXCLUSIVE TECHNOLOGY

## Amazing True-to-Life Colors

ASUS OLED display laptops come with a best-in-class color gamut. They reproduce colors with superb real-life accuracy for professional-grade visuals, making them perfect for professional and creative work, or anyone who simply wants to enjoy the very best color fidelity. OLED displays, due to the nature of the special organic light-emitting compounds they use, can reduce the harmful blue light by up to 70% compared to LCD displays<sup>1</sup>, making them extra gentle on your eyes to reduce the risk of retinal damage.

### 5 reasons for choosing ASUS OLED Laptops

<p>100% DCI-P3 best-in-class color gamut</p>	<p>Clearer image at any brightness</p>	<p>70% less harmful blue light</p>	<p>1,000,000:1 extreme contrast ratio</p>	<p>0.2 ms fastest response time on any laptop</p>
--	--	------------------------------------	---	---

## 1 Ultimate professional-grade colors

ASUS PANTONE® Validated OLED laptops deliver exceptionally detailed and realistic visuals, with a cinema-grade 100% DCI-P3 color gamut. This means that the colors reproduced on the display are richer and more vivid: it's ideal for color-intensive projects, but also enhances any kind of content.

**100%**  
DCI-P3 color gamut

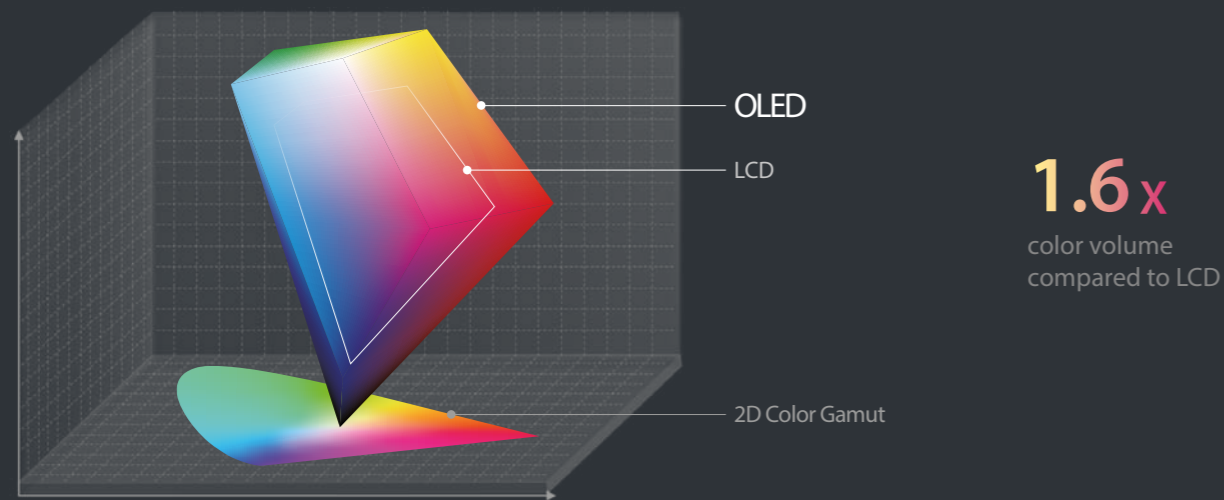

**133%**  
sRGB color gamut

**Cinema-grade**  
industry standard

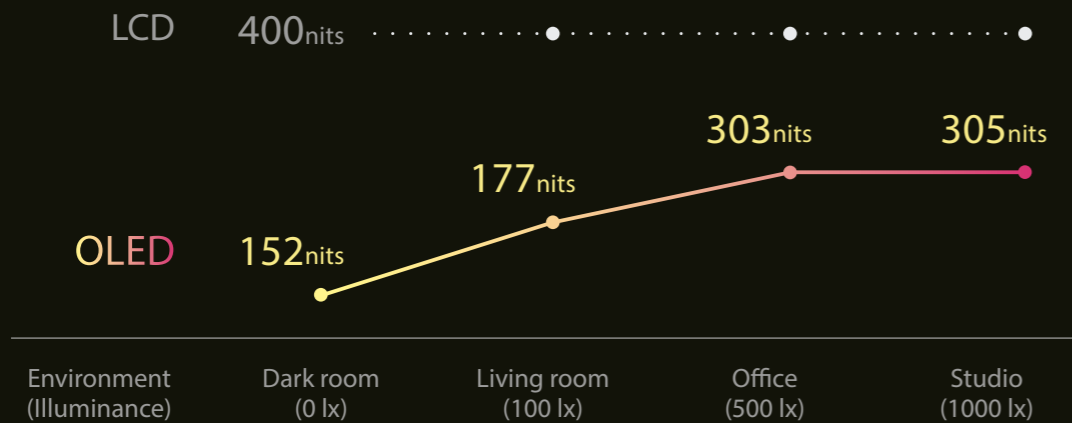

## 2. OLED has 1.6x color volume compared to LCD

On conventional LCD displays, detail and color quality usually decrease dramatically as the brightness is reduced. But ASUS OLED laptops are able to show great detail at lower brightness settings due to their high contrast and their ability to maintain a wide color gamut at low brightness. When calculating the 3D color volume — which adds illumination to the traditional 2D color gamut — ASUS OLED displays have about a 60% higher color volume, offering better color performance at any brightness level.

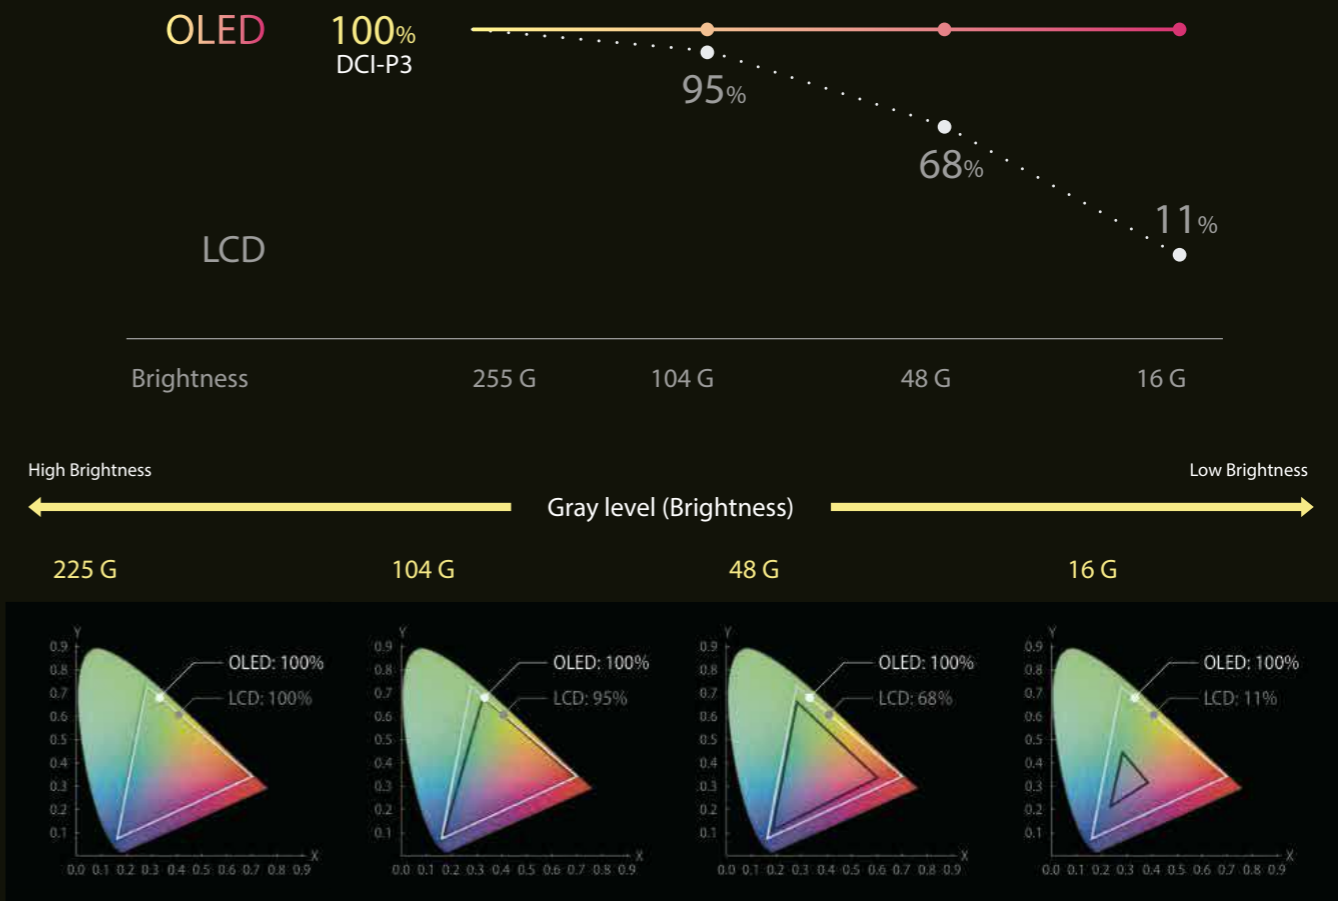

## OLED has much higher perceptual brightness

ASUS OLED laptops can maintain good color reproduction at any brightness level, so you can freely adjust the screen's brightness to suit your working environment, while still enjoying exceptionally vivid colors. For example, in the living room environment (usually illuminated at about 100 lux), you only need 177 nits brightness in an OLED display to produce the same clear image as 400 nits brightness in an LCD display. At the lower brightness levels needed on OLED displays, there's less harmful blue light emitted.

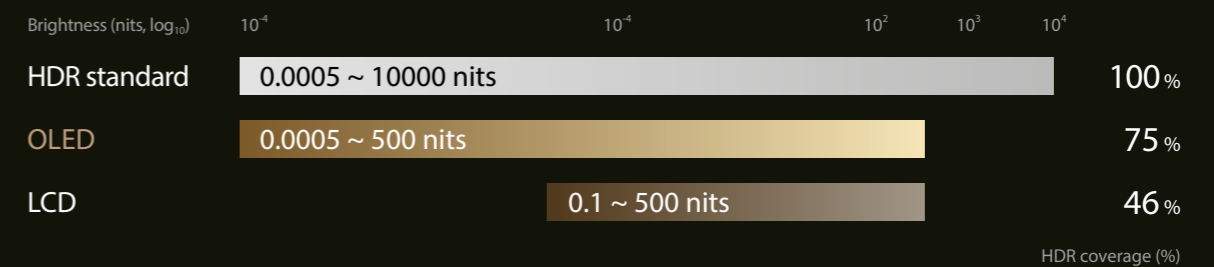

## Color-perfect at any brightness

ASUS OLED laptops maintain a 100% DCI-P3 color gamut at both high and low brightness levels, while on a standard LCD laptop the color gamut is reduced dramatically at low brightness levels. At a gray-level brightness of 16 G, LCD laptops only have an 11% DCI-P3 color gamut, while ASUS OLED laptops maintain a 100% DCI-P3 color gamut.

## High coverage of HDR standard

The industry HDR standard covers a huge range of brightness from 0.0005 nits — the lowest measurable level — up to 10,000 nits. The true blacks and high brightness possible with OLED displays give them a 75% coverage of the HDR standard, compared to about 46% for LCD displays.

### 3 70% Less harmful blue light for eye comfort

Blue light is known to cause visual discomfort and disrupt sleep quality. However, due to the nature of the special organic lighting materials in an OLED display, ASUS OLED laptops emit 70% less harmful blue light, and they're also certified by TÜV Rheinland and SGS. More importantly, unlike traditional blue-light filters, shifting the spectrum means there's no need to compromise color accuracy.

#### Premature aging of retina

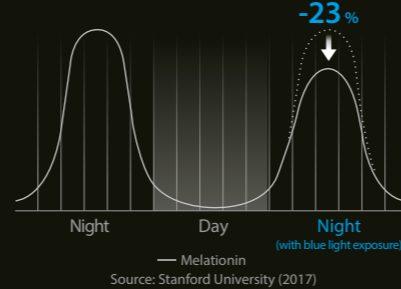

Research has shown that in a five-year-old child's eyes, approximately 60% of the received blue-light emissions pass through to the retina, compared to only around 20% for a 60-year-old adult. With ASUS OLED displays, the significantly lower blue light levels mean better eye care for children.

#### Harmful effects on retina cells

Cone cells are the cells in the eye's retina that enable color vision. In experiments conducted by the Gifu Pharmaceutical University in Japan, mice cone cells were subjected to red, green, and blue light sources. The survivability of the cone cells under blue light exposure dropped dramatically to 20% after 24 hours, while cone cells exposed to other colors retained around 100% survivability.

#### Blue light disrupts sleep cycles

When it gets dark, your brain produces the hormone melatonin, which helps to maintain the correct scheduling of your daily sleep cycles. According to a Stanford University study the production of melatonin can be blocked by exposure to blue light at night, and potentially cause sleep disruption.

Learn more at: <http://large.stanford.edu/courses/2017/ph240/kersten2>

### 4 Extreme Contrast, Astonishing Detail

ASUS OLED laptops reproduce blacks perfectly. An OLED pixel consists of three sub-pixels, each with its own self-generated illumination: a Full HD (1920x1080) display has 2,073,600 pixels, which means it has 6,220,800 self-illuminated sub-pixels, compared to just a few dozen LED backlights in a Full HD LCD display. When displaying black on an OLED display, the pixel is simply turned off to produce the darkest possible black. This enables extremely crisp and clear images even in the darkest scenes. You'll be surprised to see how many new details you'll spot in your favorite movies!

**1,000,000 : 1** contrast ratio  
**0.0005 nits** true black  
**600 nits** peak brightness

### 5 Fastest response time on any laptop

ASUS OLED displays have a 0.2 ms response time – the fastest of any laptop, and 50x faster<sup>1</sup> than the average laptop LCD display. In fact, most of LCD laptop displays have a response time between 10 and 25 ms. This ensures smoother fast-paced action scenes, low-latency gameplay, and subtle details like blur-free text scrolling.

**0.2 ms** ultrafast response time

**50x** faster response time (compared to LCD display)

1. Compared to average LCD laptop panel. Average LCD display has 10 ms response time.

# Exclusive Visual Fine-tune

## ASUS Splendid Technology

ASUS Splendid technology enhances the display by reproducing more-brilliant colors for visually stunning experience, whatever you're looking at! And you don't even have to lift a finger, as it works by automatically fine-tuning the display settings — including color temperature, contrast and brightness — to optimize any kind of image. The result is richer, deeper colors and stunning visuals whether you're watching movies, playing games or browsing through your photos.

### Normal Mode

Default Normal Mode gives you see through ASUS's panel appears to be as close as how you see the same thing with your own real eyes.

### Eye Care Mode

ASUS Eye Care mode could reduce the emissions of blue light by up to 30% so that your eyes are always protected when Eye Care mode is used.

### Vivid Mode

In Vivid mode, we make carefully calculated adjustments to the color saturation of the images to make them look more vivid and vibrant.

### Manual Mode

In Manual mode, you can easily adjust the color temperature to your taste, within a range of -50 to +50, using a simple slider control.

## ASUS Tru2Life Technology

ASUS Tru2Life technology is an exclusive video enhancement technology that's similar to that found in high-end TVs. It uses intelligent software algorithms to optimize the sharpness and contrast of every video frame, so that videos look clearer, more detailed and more realistic. Every time your computer sends a frame of video to the screen, ASUS Tru2Life analyses every single pixel in the frame and optimizes its brightness and sharpness individually.

# Unprecedented Productivity

## ASUS Intelligent Performance Technology (AIPT)

ASUS Intelligent Performance Technology (AIPT) is an ultra-efficient thermal design and power-saving solution. It uses exclusive ASUS algorithms combined with between five and nine smart sensors, an aerodynamic IceBlades fan design and a 65-watt power supply to intelligently increase CPU performance with improved stability, while allowing all-day battery life and a quieter and cooler laptop. With AIPT, your laptop can run in high-performance mode for as long as you need. ASUS Intelligent Performance Technology features Whisper, Balanced and Performance modes. You can easily switch between the modes by pressing the Fn + F hotkey combination, and select Performance Mode to experience the ultimate performance boost.

Up to  
**40%**  
Better CPU performance

All-day battery life

Excellent cooling design

### Performance Mode

Maximizes performance and thermal parameters for heavy workloads

### Balanced Mode

Maximizes performance and thermal parameters for heavy workloads

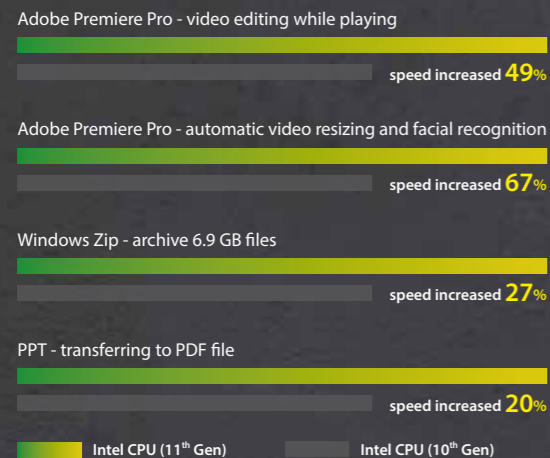

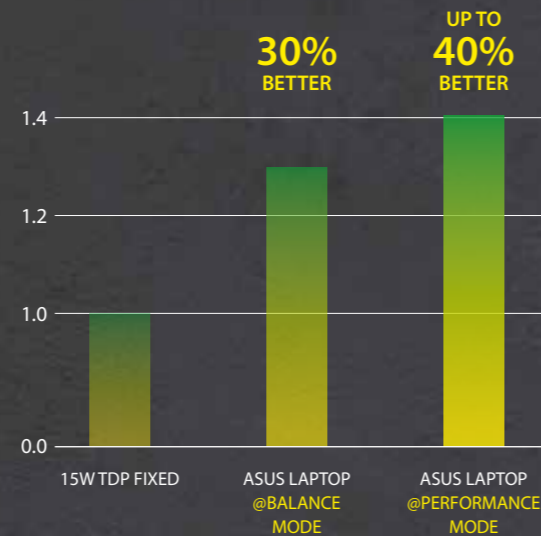

### Whisper Mode

Cool and quiet power-saving operation

## Unleash the possibilities

Using ASUS Intelligent Performance Technology in Performance mode, an ASUS laptop with an 11th Gen Intel® processor can enjoy a performance boost of up to 40% compared to an ordinary performance<sup>1,2,3</sup>. Even in the default Balanced mode, performance can be up to 30% better!<sup>1,2</sup>

## See the amazing performance improvement!

Here's how much Performance Mode can boost the performance of some commonly used apps — so you can finish your work even quicker!<sup>2,3,4</sup>

## How to enable a 40% performance boost

ASUS Intelligent Performance Technology features Whisper, Balanced and Performance modes. You can easily switch between the modes by pressing the Fn + F hotkey combination. You can also switch via the MyASUS software by choosing Hardware Settings then ASUS Intelligent Performance Technology Modes.<sup>2,3,4</sup>

## Aerodynamic IceBlade for accelerated cooling

Each model in the new VivoBook series provides exceptional heat dissipation via an upgraded 8 mm heat pipe and a new IceBlade fan that efficiently accelerates heat transfer. The 87-blade IceBlade fan and impeller are made of a liquid-crystal polymer that allows them to be lighter and thinner than ordinary fans. Each IceBlade fan blade has a 3D-curved aerodynamic design, allowing the fan to achieve better flow rate and lower noise. In addition, the IceBlade fans also use a fluid-dynamics bearing, which can achieve better vibration reduction and lower noise when compared to ordinary fans.

Up to  
**0.2 mm**  
thin fan blade

Up to  
**87**  
fan blades

**3D - curved**  
aerodynamic blades

**3 - phase**  
motor revolution

**30% more**  
flow rate increase

**10%**  
noise reduction

1. The 40% performance increase is compared to a Cinebench R20 multicore score of an 11th generation CPU at fixed 15W TDP. Data is from ASUS internal laboratories.  
 2. Test score may vary according to specifications.  
 3. To enable Performance Mode, please keep the laptop plugged in for the best performance, set the Windows power option as ASUS Recommended Mode, and select Performance Mode in the MyASUS software (or switch using the Fn + F hotkey combination).  
 4. The results are compared to 10th generation CPU at fixed 15W TDP. Data is from ASUS internal laboratories.

# Seamless multitasking experience

## ScreenPad

The new ScreenPad™ with ScreenXpert 2 upgrades the traditional laptop experience, adding an interactive secondary touchscreen that enhances your productivity with more possibilities. Its intuitive smartphone-like interface lets you easily manage tasks and create your own seamless multitasking workflow. There's a series of handy ASUS utility apps to boost productivity including Phone Call, Task Group, Handwriting, and so on. There are also useful quick controls that improve the interactions between the main display and ScreenPad: for example, you can now launch a video or chat box — or many other apps — onto ScreenPad to take advantage of the extra space wherever you are, and without interrupting your work on the main display.

## ScreenPad Plus

Designed to give you the ultimate edge in workflow efficiency, the unique full-width ASUS ScreenPad™ Plus secondary touchscreen works seamlessly with the main display. The interactive ScreenPad Plus enhances your productivity and allows endless possibilities, with an enhanced collection of handy quick controls for intuitive interactions between the main display and ScreenPad Plus. And now you can also drag any discrete app or in-app toolbar onto ScreenPad Plus to give you more room to work on the main display, with a handful of ASUS-developed utilities that will boost your multitask productivity.

## Link to MyASUS

The Link to MyASUS feature is a handy tool that's part of the MyASUS app<sup>1</sup>. It seamlessly integrates your ASUS PC with your mobile devices, boosting your productivity and allowing easier multitasking. A series of features enables you to transfer files or links quickly and wirelessly between devices, control your phone from your PC, use your mobile device as a secondary display, or access local PC files remotely from your phone. Link to MyASUS simplifies your life!

### File Transfer :

Simply tap or drag to share files between your PC and mobile devices in the blink of an eye.

### URL Share:

Simply tap the share icon in your browser and click MyASUS. The link of the webpage you are watching on your PC will be instantly sent to your mobile device — where it will open automatically for seamless on-the-go convenience<sup>2</sup>.

### Screen Mirror :

Mirror your phone's screen<sup>3</sup> on your PC and use any mobile app via your PC's mouse, keyboard, and touchscreen. Now you can do everything on your phone from the comfort of your PC.

### Screen Extend<sup>4</sup> :

Use your phone or tablet as a secondary display on the go, for dual-display convenience. Cross-referencing multiple documents has never been easier!

### Hands-Free Phone Calls :

Make and take phone calls, which can be routed through your PC's speakers and microphone. You can also access your phone's contact book on your PC, so you can search for contacts and call them directly. There's no need to dig out your phone from your bag or pocket!

### Remote File Access :

Use your mobile device to remotely access files stored on your ASUS PC, and use your PC as a personal cloud replacement and gain access anywhere and anytime!

1. Link to MyASUS is only supported on devices using processors later than Intel® 10th Generation and AMD® Ryzen 4000 series.

2. URL transfer requires the Microsoft Edge browser.

3. The Link to MyASUS Mirror full function works on Android version 9.0 / iOS 13.4 or above.

4. The Link to MyASUS Screen Extender function requires Android 9 / iOS 10 or above.

# Personal care

## Antibacterial protection

The surface of any laptop harbors thousands of potentially harmful bacteria. To keep your laptop<sup>1</sup> hygienic, it's protected using the new ASUS AntiBacterial Guard treatment<sup>2</sup>. ASUS AntiBacterial Guard has been scientifically shown to inhibit the growth of bacteria<sup>3</sup> by over 99% over a 24-hour period. It helps keep the surfaces of your laptop clean and sanitary, potentially reducing the spread of harmful bacteria via contact.

# Worry-free Support

## ASUS AppDeals

Once you're part of the ASUS family, you can enjoy discounts on premium apps and ASUS-exclusive deals via AppDeals. As part of a select few, you get to enjoy reduced prices for many of the most popular apps out there. Be sure to check in often! We're constantly adding new exclusive deals so you can save money on your favorite apps.

## TÜV Rheinland-certified display

Blue light emissions could potentially bring harm to the eye and cause sleep disorder, especially for children. Our laptops comes with an eye care mode available in MyASUS, which decreases blue light emission significantly, but creates less color distortion compared to regular blue light filter solutions – this makes our laptop displays TÜV Rheinland-certified for low blue light and flicker-free, making sure you can enjoy long hours of use with less eye fatigue.

## System Diagnosis

The System Diagnosis tool helps you identify any problems that are encountered, reports the sources of the issues, and provides instant suggestions. It also helps our customer service representatives to identify problems quickly and accurately if your device needs repairing.

1. ASUS AntiBacterial Guard protection is an optional feature only available on the Transparent Silver version of VivoBook 15 (X512).  
 2. ASUS AntiBacterial Guard treatment is registered by US EPA and authorized under EU BPR.  
 3. Tested by an independent third-party laboratory according to the ISO 22196 standard (Measurement of antibacterial activity on plastics and other non-porous surfaces), using bacterial cultures that include Escherichia coli and Staphylococcus aureus, with an antibacterial activity result of R > 2 compared to an untreated surface. R = 2 indicates a 99% reduction in bacterial activity.

# Optimized Conferencing

## ASUS Two-Way AI Noise-Canceling Technology

With the increase in remote working and video conferences, we've introduced ASUS Two-Way AI Noise-Canceling Technology to ensure the best communications experience. This technology employs machine learning in order to isolate unwanted noise from human speech. The AI Noise-Canceling Mic feature in the MyASUS app can filter out ambient noise, and the Multi-Presenter mode normalizes all individual voices from different positions for optimum group conference-call quality. The AI Noise-Canceling Speaker feature filters out all ambient noise apart from human speech — so you'll hear what everyone else is saying.

## 3DNR Webcam

3D Noise Reduction (3DNR) Technology significantly upgrades the webcam image clarity for clearer conference calls. This technology is trained to consistently compare and analyze multiple frames, while implementing an image-strengthening algorithm to what the webcam captures. The result is the surprisingly lower image noise and much more natural skin tones, especially in darker environment.

# Unrivalled Mobility

## ASUS WiFi Master

ASUS offers a comprehensive range of wireless connectivity solutions. The WiFi 6 in the laptops allows you to load online content in the blink of an eye, and it's made even better by the ASUS-exclusive WiFi Master Technology, which includes ASUS WiFi RangeBoost, WiFi Stabilizer, WiFi SmartConnect, and TaskFirst.

WiFi RangeBoost utilizes multi-antenna technology to expand your WiFi connectivity as well as WiFi speed. For rock-solid stability in your WiFi connections, WiFi Stabilizer filters out wireless interference, so you'll always enjoy the fastest possible speeds. WiFi SmartConnect automatically selects the best WiFi source, so your laptop connects seamlessly to the best WiFi signal and known mobile hotspots. TaskFirst gives you control over which task you'd like to prioritize your network speed to — preventing others apps from competing network capacity with your focusing task.

## USB-C Easy Charge (5V-20V)

USB-C Easy Charge support means that your laptop can be used with a wide range of standard USB-C chargers. You can enjoy ultrafast charging with any PD (Power Delivery) certified charger, including the supplied 65-watt fast-charge adapter, or juice up your device on the go with airline chargers, portable chargers or power banks! It's incredibly convenient when there are no wall sockets available, such as on flights or in vehicles.

## Two seamless displays

ZenBook Pro Duo 15 OLED also includes the new tilting ScreenPad Plus, a secondary touchscreen that automatically tilts up by 9.5°, creating an angle of 144.5° between the main display and ScreenPad Plus for more comfortable viewing. You can enjoy seamless visuals across both displays, with easy multitasking thanks to the built-in ScreenPad Plus-optimized apps that enhance your workflow.

## Flagship performance

ZenBook Pro Duo 15 OLED is a real powerhouse when it comes to performance. It's powered by up to a 10th Generation Intel® Core™ i9 eight-core processor with up to 32 GB of memory, with an ultrafast PCIe® SSD to ensure fast boot times and rapid app loads. With this ultrapowerful combination, ZenBook Pro Duo 15 OLED takes professional-quality tasks in its stride, such as multi-layer photo or video editing, music production, or even 3D graphics rendering.

## Professional-grade graphics

The professional-grade NVIDIA GeForce RTX 3070 Laptop GPU delivers fantastic performance. Advanced RTX features like hardware accelerated ray tracing ensure stunning visuals, while exclusive AI assistance helps with repetitive tasks for faster content creation.

## 4K OLED HDR, Ultraslim bezels

ZenBook Pro Duo 15 OLED gives you a superbly immersive viewing experience, with a brilliant 4K OLED HDR NanoEdge display that delivers ultra-vivid colors and deep blacks. Its cinema-grade 100% DCI-P3 color gamut and Delta-E <2 color accuracy make it a superb all-rounder for professional creation, and it's also PANTONE® Validated for professional-grade color accuracy and TÜV Rheinland-certified for eye care.

# ASUS ZenBook Pro Duo 15 OLED (UX582)

## The laptop of tomorrow

Tilting ScreenPad Plus

Intel® Core™ i9 processor

GeForce RTX™ 3070 GPU

4K OLED HDR touchscreen

ZenBook Pro Duo 15 OLED lets you get things done in style, calmly, efficiently, and with zero fuss. It's your powerful and elegant next-level companion for on-the-go productivity and creativity, featuring an amazing 4K OLED HDR touchscreen. It also includes the brand-new tilting ASUS ScreenPad™ Plus secondary 4K display that offers effortless ergonomics and seamless workflows. Powered by up to an Intel® Core™ i9 eight-core processor, ZenBook Pro Duo 15 OLED brings you all the benefits of tomorrow's technology, today.

## ASUS ZenBook Pro Duo 15 OLED (UX582LR)

- Windows 10 Home
- Up to 10th gen Intel® Core™ i9 processor
- Up to NVIDIA® GeForce® RTX 3070
- Up to 1 TB SSD
- Up to 32 GB memory
- Up to 15.6" 4K OLED HDR NanoEdge display
- NanoEdge 93% screen-to-body ratio
- Pantone validated, DCI-P3: 100%
- 14" ScreenPad™ Plus
- Thunderbolt™ 3 USB-C\*

## Two seamless displays

ZenBook Duo 14 also includes the new tilting ScreenPad Plus, a secondary touchscreen that automatically tilts up to an angle of 7°, which reduces glare and reflections for improved readability. You can enjoy seamless visuals across both displays, with easy multitasking thanks to the built-in ScreenPad Plus-optimized apps that enhance your workflow.

## Heavyweight performance

ZenBook Duo 14 is no lightweight when it comes to performance. It harnesses the power of the latest 11th Generation Intel Core processors combined with plenty of fast RAM, plus Intel Iris® X<sup>e</sup> and discrete NVIDIA® graphics. There's also an ultrafast PCIe® SSD to ensure fast boot times and rapid app loads.

## Work more productively on the go

We've slimmed down the new ZenBook Duo 14 so it's 3 mm thinner than the previous generation: this is made possible by the tilting ScreenPad Plus design, which reduces the need for internal cooling airflow. Battery life has also been boosted to an amazing 17 hours for all-day productivity. The precision-engineered ErgoLift hinge tilts the keyboard by 4.5° for ergonomic, fatigue-free typing.

### Travel light, travel smart

The compact, thin and ultralight all-metal design of ZenBook 14 makes it the ideal traveling companion. It's also the world's thinnest 14-inch laptop to feature a full set of I/O ports — including HDMI and USB Type-A — so you can enjoy versatile connectivity wherever you are.

### No charger? No problem!

With ZenBook 14's amazing 21-hour battery life\*, traveling without a charger isn't a big deal. When you do need to top up, its fast-charge feature can restore the battery to a 60% charge level in just 49 minutes, so you'll be ready to go in no time.

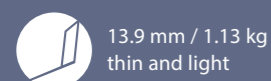

### Connect fast — anywhere

ZenBook 14 redefines what's possible in an ultrathin laptop to give you a full complement of I/O ports, including full-size HDMI and USB Type-A ports. The power of Thunderbolt™ 4 is also at your disposal, with two Thunderbolt™ 4 USB-C® ports that support fast charging, 4K UHD external displays and up to 40Gbps data transfers. For easy transfers of data from your mobile devices, there's also a microSD card reader.

## ASUS ZenBook 14 (UX425)

### Timeless beauty, effortless portability

13.9 mm / 1.13 kg  
thin and light

Up to 21 hours  
battery life

Comprehensive  
I/O ports

90% screen-to-body  
ratio

The beautiful new ZenBook 14 is more portable than ever. It's thinner, lighter, and incredibly compact, yet includes HDMI, Thunderbolt™ 4 USB-C®, USB Type-A and MicroSD card reader for unrivaled versatility. Built to deliver powerful performance, ZenBook 14 is your perfect choice for an effortless on-the-go lifestyle.

### Bright, clear, power-efficient display

ZenBook 14 has a bright and clear four-sided NanoEdge display, with slim bezels that create an 90% screen-to-body ratio for a more immersive viewing experience. The low-power 1-watt display delivers an incredible 400nits of brightness, while maximizing battery life.

### ASUS ZenBook 14 (UX425EA)

- Windows 10 Home
- Up to 11th gen Intel® Core™ i7 processor
- Up to Intel® Iris® X® Graphics
- Up to 1 TB SSD
- Up to 32 GB memory
- Up to 14" WQHD NanoEdge display
- NanoEdge 90% screen-to-body ratio
- Up to 21 hours battery life
- Thunderbolt™ 4 USB-C®
- Thin and light: 1.13kg, 13.9mm

All it takes is a glance

\* Battery tests conducted by ASUS on August 24, 2020 using the 1080p Video Playback scenario. Test configuration: ZenBook 14 UX425EA, 1W FHD LCD panel, Intel® Core™ i5-1135G7, 256 GB PCIe 3.0 x2 SSD, 8 GB RAM. Test settings: WiFi enabled but disconnected (not connected to any access point), Windows Power Plan set to Balanced, display brightness set to 150 cd/m2, NumberPad off. Actual battery life may vary depending on product configuration, usage, operational conditions and power management settings. Battery life will decrease over the lifetime of the battery.

### The intelligent touchpad, evolved

The new ScreenPad™ upgrades the traditional laptop experience, adding an interactive secondary touchscreen that enhances your productivity with more possibilities. Its intuitive smartphone-like interface lets you easily manage tasks and create your own seamless multitasking workflow.

### Superb all-round performance

The latest 11th Generation Intel® Core™ processors in ZenBook 14 deliver enhanced performance for effortless multitasking or entertainment with Intel® Iris® X<sup>e</sup> graphics or discrete NVIDIA® GeForce® MX450 graphics, for silky-smooth visuals. ZenBook 14 also features ultrafast storage, with up to a 1 TB PCIe® 3.0 x4 SSD or a PCIe SSD accelerated with 32 GB of Intel Optane™ Memory H10. ZenBook 14 has superb all-round performance that makes any task easier.

### Immersive four-sided NanoEdge display

ZenBook 14 features a frameless four-sided NanoEdge wide-view display, with slim bezels that create up to a 92% screen-to-body ratio for incredibly immersive viewing experiences. This bright and clear display has a wide, 100% sRGB color gamut to ensure vivid colors.

## The elegant way to do more

Intelligent ScreenPad™

Powerful discrete graphics

4-sided NanoEdge Display

Long Battery Life

The lightweight ZenBook 14 combines superb performance and effortless portability with timeless good looks. Weighing as little as 1.19 – 1.29 kg, ZenBook 14 includes the revolutionary ASUS ScreenPad™ for enhanced productivity, and is powered by 11th Gen Intel® Core™ processors and integrated NVIDIA® GeForce® MX450 graphics. With its great battery life, ZenBook 14 helps you get more done, wherever you are.

### Get more done, with less effort

ZenBook 14 is designed for effortless on-the-go productivity, with a highly portable lightweight design and an outstanding battery life that frees you to concentrate fully on tasks.

### ASUS ZenBook 14 (UX435)

- Windows 10 Home
- Up to 11th gen Intel® Core™ i7 processor
- Up to NVIDIA® GeForce® MX450
- Up to 1 TB SSD
- Up to 16 GB memory
- Up to 14" FHD NanoEdge touchscreen
- NanoEdge 92% screen-to-body ratio
- Optional touchscreen
- Optional 5.65" ScreenPad™
- Thin and light: 1.19 - 1.29kg, 16.9 - 17.9mm
- Up to 12 hours battery life
- Two Thunderbolt™ 4 USB-C®

## Flex with style

The 360° ErgoLift hinge on ZenBook Flip 13 OLED has a silky smooth, stepless action that holds the display securely at any angle. The versatility of ZenBook Flip 13 OLED allows you to work or play in any mode you choose: laptop, tent, stand or tablet. The ErgoLift hinge is also torture-tested to ensure maximum reliability for total peace of mind.

## Thin, light, and fully connectable

ZenBook Flip 13 OLED is designed for effortless portability. It's surprisingly light — just 1.3kg — and a mere 13.9mm thin, so your on-the-go productivity and creativity aren't hampered. Even with its super-slim design, ZenBook Flip 13 OLED doesn't skimp on I/O capabilities: with HDMI, USB Type-A and two Thunderbolt™ 4 USB-C® ports, it's one of the thinnest convertible laptops around with such an impressive list of ports!

## NanoEdge touchscreen with high-sensitivity stylus support

Artists, photographers and designers will love what the NanoEdge display combined with the optional ASUS Pen can offer. The smooth-as-silk touchscreen supports the 4096 levels of pressure sensitivity that the ASUS Pen offers, providing an upgraded experience that makes ZenBook Flip 13 OLED your perfect choice for casual creativity, notetaking and intuitive editing in any supported app.

# ASUS ZenBook Flip 13 OLED (UX363)

## Flexible performance, effortless mobility

FHD OLED touchscreen

Ultrathin and ultralight

360° ErgoLift hinge

4096-pressure-level stylus support

The distinctively elegant ZenBook Flip 13 OLED has an all-new design that combines ultimate portability with supreme versatility. Its sleek NanoEdge display and 360° ErgoLift hinge make ZenBook Flip 13 OLED extra compact, and the super-slim 13.9 mm chassis houses a wide range of I/O ports for easy connectivity. Its Intel® Core™ processor gives you effortless performance for on-the-go productivity and visual creativity. ZenBook Flip 13 is the versatile and powerful all-rounder that's your perfect business or creative partner.

## Extreme battery life

ZenBook Flip 13 OLED uses a high-capacity battery that won't let you down, however long and demanding your working day is. Its fast-charge technology lets you recharge to 60% capacity in as little as 49 minutes, so you can be up and running quicker than ever. ASUS USB-C Easy Charge lets you use a wide range of standard USB-C chargers for convenient charging on the go.

## Colors that are true to you

The unique colors of VivoBook S15 buck the trend, providing expressive hues that convey the true you. The colors reflect individuality and self-expression, so you're already breaking boundaries even before you open the lid. Multiple color options includes the Dreamy White, Indie Black, Resolute, and Gaia Green.

## Dare to be you

Being bold means putting yourself out there, and the sleek VivoBook S15 stands out thanks to its textured metal chassis with diamond-cut edges, unique colors, and color-blocking *Enter* key. The diamond-cut design also makes it easier for you to open the lid.

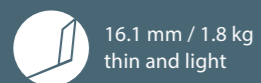

## Be free from burden

VivoBook S15 keeps you productive and entertained, even on the go. With an overall weight of just 1.8kg and an ultrathin profile, VivoBook S15 simply slips into your backpack so it goes where you go, so get out there and show the world who you are.

# ASUS VivoBook S15 (S533)

## Own the spotlight

16.1 mm / 1.8 kg  
thin and light

NanoEdge display

High-capacity  
battery with  
long battery life

Up to 40%  
performance boost

ASUS VivoBook, a perennial favorite, is getting a new bolder look that's sure to get pulses racing. The slim and lightweight VivoBook S15 now features diamond-cut edges and textured finishes, and is available in four distinct colors that have been chosen to reflect your personality. The positive vibes continue when you open the lid, where you're greeted by an *Enter* key with color-blocking edges. VivoBook S15 brings out the true you, both inside and out.

## Push boundaries with NanoEdge

The thin bezel NanoEdge display provides you with an immersive viewing experience, and enables a more compact footprint so VivoBook S15 takes up less space on your desk or in your backpack. On top of that, its Full HD display offers wide viewing angles and exceptional color reproduction for truly vivid visuals.

## ASUS VivoBook S15 (S533)

# ASUS X515

Easy portability. Effortless productivity.

Thin & lightweight

NanoEdge display

Intel® Core™ i7 Processor

USB Type-C

Whether for work or play, ASUS X515 is the entry-level laptop that delivers powerful performance and immersive visuals. Its NanoEdge display boasts wide 178° viewing angles and a matte anti-glare coating for a truly engaging experience. Inside, it's powered by up to an Intel® Core™ i7 processor with 16 GB 2400 MHz RAM, and features NVIDIA® GeForce® MX330. A dual-storage design with up to a 1 TB PCIe® SSD and a 1 TB HDD gives you the perfect combination of large storage capacity and fast data read / write speeds. There's also Intel® Optane™ memory support<sup>1</sup> to help speed things up even more.

## Get a wider view of the world

The NanoEdge display gives ASUS X515 a vast screen area for an immersive viewing experience for work and play. Its wide-view FHD panel features an anti-glare coating to reduce unwanted distractions from irritating glare and reflections, so you can truly focus on what's in front of you.

## Fast & efficient

ASUS X515 ensure everyday tasks are handled with ease. They are powered by up to 10th Generation Intel® Core™ i7 processors with NVIDIA® GeForce® MX330 discrete graphics. The dual storage design features up to a 1TB PCIe SSD and 1TB HDD, with optional Intel® Optane™ memory technology.

## Empower your dynamic lifestyle

With an overall weight of just 1.8kg\*, the extremely portable ASUS X515 is the lightweight laptop that keeps up with your fast-paced lifestyle. It looks good, too, with its Transparent Silver, Slate Grey, or Peacock Blue finish.

## Reinforced protection for your durability

X515 feature the metal brace underneath the keyboard that provides a stable platform for a much more comfortable typing and touchpad experience. Besides the structural rigidity, perpendicular braces along the edge of the chassis work like side impact protection beams in automobiles to protect the hinge joint and internal components. The sides of the lid are reinforced and work like side-impact protection beams in automobiles. The HDD features E A R™ HDD shock dampening protection is designed to protect your data from physical impact. Laptop HDDs are generally more susceptible to physical damage compared to SSDs. This active hard-drive protection feature automatically detects shock and vibration across all three axes to effectively reduce the chances of HDD damage, so you can work without worry, even in a moving vehicle.

## ASUS Laptop X515
