

Timely Updates Are Critical for Success

Support for Windows 10 PCs will end October 14, 2025.

According to the latest ASUS Global Report, three out of four SMBs struggle to keep up with necessary updates without the active support of IT staff. This situation can put them at risk by missing out on the latest security updates and place them at a disadvantage by not utilizing cost-saving productivity features.

75%

Of SMBs struggle with OS
updates without active IT teams*

1/2

Of SMBs are being challenged by
IT maintenance and updates*

Turn to Smarter Spending

The ASUS Business team is a dependable IT partner for today's modern SMBs.
