

**ACPPA**  
Australian Catholic  
Primary Principals'  
ASSOCIATION

The ASUS Chromebook Flip C436 is helping ACPPA's Gez Mulvahil support Catholic Primary School Principals across every corner of the nation.

The Australian Catholic Primary Principals' Association (ACPPA) provides a valued and considered voice for Principals as they lead and inspire the heart, mind and spirit of Catholic primary education. The association represents Principals and Leaders from over 1,240 primary schools and 150 combined primary/secondary schools. As ACPPA's Executive Officer, Gez Mulvahil relies on her ASUS Chromebook Flip C436 to help her provide overarching support to the National Board.

"Australian Catholic Primary School Principals are incredible. The schools they lead educate more than 400,000 students – 20% of primary-aged children in Australia. I'm based in Darwin and work between an office and home. Because my role is national, I regularly travel across the country and run online meetings with the board, management team, key partners and stakeholders. I look for durability, portability and functionality in a laptop, and the ASUS Chromebook Flip C436 is essential to help me maintain connections wherever I am."

Gez's ultra-compact, ultra-powerful ASUS Chromebook Flip C436 is stylish and ergonomic for superb portability

and performance. Measuring just 13.7mm thin and weighing 1.1kg, it's a mighty light frequent flyer companion.

The powerful 10th Gen Intel® Core™ i7 processor and full G Suite of productivity and collaboration apps enable Gez to breeze through her tasks from dawn to dusk. "This ASUS Chromebook's battery life is excellent and maintains charge through my work day, even when numerous programs are running," she says.

Thanks to the ASUS Chromebook Flip C436's precision engineered versatility, Gez can work, videoconference and present in laptop, tent, stand or tablet mode – something she appreciates as she moves between work environments, particularly on the plane where space is tight.

When Gez uses her device in laptop mode, the 360° ErgoLift hinge innovation lifts and tilts the backlit keyboard into the perfect position with 1.2mm key travel for more accurate and comfortable typing. There's no need for Gez to unlock her ASUS Chromebook Flip C436 with a password, as the keyboard also features a super-convenient in-built fingerprint sensor.

When back in Darwin, Gez's ASUS Chromebook Flip C436 becomes the essential portal for online meetings in the office or when working from home. "I look for high-quality video and audio in a laptop, and this ASUS Chromebook has both," continues Gez. "The remarkably clear surround sound is on a par with much larger laptops, the speakers don't get 'tinny' or vibrate when on a high volume setting, and streaming my meetings is smooth through strong Wi-Fi™ connectivity."

Such smooth and clear videoconferencing is made possible thanks to the ASUS Chromebook's quad, omnidirectional speakers, harman/Kardon® certified sound, and faster-than-wired speeds of up to 2.4Gbps to support Gez's streaming and instant transfer of large creative files.

"The ASUS Chromebook Flip C436 looks very smart and professional," concludes Gez. "The design and functionality have been effortless to use from the minute I opened the box. Literally, plug and play! In addition, having the follow-up service for up to three years is a strong commitment and generates faith in the product's durability. The ASUS Chromebook has become an essential tool for my Executive Officer role at ACPPA."

Leon Brumen, Head of Commercial at ASUS ANZ commented on the ASUS ExpertBook series.

ASUS is a proud partner of the Australian Catholic Primary Principals' Association. Principals who are highly effective leaders are fundamental to successful schools, and ACPPA is committed to supporting them, stimulating leadership, and providing quality professional development. We look forward to continuing our ACPPA partnership and wish the association continued success in its valuable advocacy and action for Catholic school leadership.
